Professional Summary

Frontend Developer with 5+ years of experience building responsive, scalable web applications using React, Next.js, and TypeScript. Proven ability to translate UI/UX designs into pixel-perfect interfaces and integrate REST APIs for dynamic applications. Passionate about performance optimization and delivering high-quality user experiences. Currently seeking remote opportunities.

Professional Experience

Frontend Developer Intern – Trueminds Innovations Ltd, Edo, Nigeria (2026)

- Collaborated with Product Managers, UI/UX Designers, Backend Engineers, and stakeholders to develop a scalable Learning Management System (LMS)
- Designed and implemented core features: Dashboard, FAQ page, Onboarding flow, and Explore page
- Integrated REST APIs for seamless data flow and real-time updates
- Improved UI responsiveness using Tailwind CSS and modern React patterns
- Currently implementing API integration for the Team Management module

Frontend Developer Intern – HNG Tech Internship, Lagos, Nigeria (2024)

- Engineered reusable UI components, improving efficiency by 30%
- Built responsive and accessible user interfaces
- Applied modern frontend best practices

Projects

Shop Manager App (Next.js, TypeScript, Tailwind CSS, Node.js, Express, MongoDB)

- Built a shop management system for tracking sales and transactions
- Implemented inventory management system for stock tracking
- Developed sales analytics dashboard
- Integrated REST APIs for real-time updates

Live Demo: <https://shop-manager-sable.vercel.app>

Learning Management System (Next.js, TypeScript, Tailwind CSS)

- Built scalable LMS platform with dashboard, onboarding, FAQ, and explore modules
- Integrated APIs for real-time data updates
- Improved performance and responsiveness

Live Demo: <https://talentflow-eight-weld.vercel.app/>

Library Website & Management System (Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB)

- Developed a full-stack digital library platform featuring role-based dashboards for administrators, librarians, staff, and students.
- Implemented library management features including user registration, book borrowing and returns, automated overdue fee calculation, announcements, and news management.
- Integrated AI-powered academic tools, including an AI Librarian chatbot and AI PDF note generator for research and learning support.
- Built responsive public-facing pages for the library catalog, services, branches, FAQs, news, contact, and institutional information using modern UI components.
- Designed secure JWT authentication with role-based access control and RESTful APIs for efficient data management and system scalability.

Live Demo: <https://library-fubk.vercel.app/>

Chuks Kitchen Food Ordering App (UI)

- Developed responsive food ordering interface with cart functionality
- Designed intuitive UI for better user experience

Live Demo: <https://chuks-kitchen-food-ordering.netlify.app>

Education

Bachelor of Science in Information Technology – Maryam Abacha American University, Maradi, Niger (2020 – 2023)

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+)

Styling: Tailwind CSS, CSS3, HTML5

Backend: Node.js, Express, MongoDB

Tools: Git, REST APIs, Responsive Design

Certifications

Trueminds Innovations Ltd Internship – Frontend Developer

[HNG 11 Internship](#) – Frontend Development
